INGS BANK. Owing to the recent excitement in relation to Owing to the recent extended agreement the Lry Dock Savings Bank, Banking Superintendent Lamb ordered a special examination of its condition at the request of Mr. Mills, the president of the bank. Mr.

Lamb now writes that on April 29: "The work was begun by three examiners, whom I regard as thoroughly qualified to sift everything in the assets and judge intelligently of the spirit and character of the management of the savings bank. I have repeatedly enjoined and exhorted the gentlemen to lay bere everything in the condition and conduct of the in-stitution. I believe that they have done so, and that their judgment is fair and trustworthy, and that it can safely be accepted everywhere as the true statement of the financial condition and the prudent, conservative administration of this savings institution."

administration of this savings institution.

The examiners, Albert B. Kirtland, F. M. St. John and Alfred Taylor, report the surplus of assets over fiabilities at \$519,839-72, and the excess of income over expenses at \$53,617-21. They say that the institution hoins bonds to the amount of \$2,118,000 secuned by mortgages on real estate in this city. The mortgaged property has been recently appraised, and it spears that the loans are well secured. The loans are small and well distributed. The real estate consists of its present bank building, which cost \$505,571-31, its old cank building, which cost \$505,6571-31, its old cank building, which cost \$505,651-35, and some property on Avenue-D and Tenth-sit, acquired on sale under forcelosure, agregating \$405,651-35, and some property on Avenue-D and Tenth-sit, acquired on sale under forcelosure, agregating \$50,650. The investment securities held by the institution are all first class, and amount, with accrued interest, to \$5,106,321-75, estimated at the market value on the day of the report. The institution has \$322,065-43 cash on hand. The liabilities are to 16,480 depositors and amount to \$7,376, 18-46. The examiners approve the present management. The banking building, they say, was unwisely planned and unnecessarily expensive, but excluding that as an asset facre is still a present surplus of \$260, \$39-72. The examiners, Albert B. "The first bonds under the contract of April 11, were issued by the Treasury Department on April 13, and we shall ask for \$5,000,000, the August option, on Monday. This will make precisely one month since we began the sales under the contract, and during that time we have rold nearly \$25,000,000 of 4½-per cent bonds, an average of almost \$1,000,000 a day. TO-DAY'S STOCK EXCHANGE ELECTION. FOUR TICKETS IN THE FIELD, AND MUCH INTEREST SHOWN.

The annual election at the New-York Stock Exchange, to-day, promises to be exciting. There are four tickets in the field, called the "Regular," "Independent," "Conservative" and "Rotation and Reform." They all have the names of Brayton Ives, for President; D. C. Hays, for Treasurer, and R. Q. White for Secretary. The Chairman, and members of the Governing Committee.

James Mitchell, the Regular and Rotation and Reform James Mitchell, the Regular and Rotation and Reform nominee for chairman, is opposed by Moses A. Wheelock, the Independent and Conservative candidate. For Vice-Chairman, the names of Samuel W. Patchen, James J. Mitchell, A. I. Ormsbee, William McChure, and Alexander Henriques appear on the various tickets. With the exception of a few names, the regular ticket for Governing Committee is supported by the other factions. The principal cause of contest appears to be in opposition in the Exchange to the recommendation of the nominating committee that Moses A. Wheelock and James J. Mitchell should be the regular candidates for Chairman and Vice-Chairman, and the friends of the former are zealously pushing his claims. It is understood that the Governing Committee heid a special meeting on Saturday, and reversed the decision of the Committee on Admissions, for the readmission of Mr. Wheelock to membership, on the ground of irregularity.

A WHOLE FAMILY PROSTRATED. FIVE PERSONS MADE SICK IN A HOUSE PERVADED WITH SEWER GAS.

The house No. 114 Waverley-place has been found by the Health authorities to be so thoroughly pervaded with sewer gus that the entire family residing peryaded with sewer gas that the entire family residing in it had been prostrated by chills and gastric affections in consequence. Five persons in the house are at present on sick beds, their illness exhibiting in each case the same symptoms, distinctly to be traced to the sewer gas. Dr. Alfred Pardy, of No. 288 Madison-ave., reported these facts last Friday to the Health Beard, and in spectors examined the house thoroughly on Saturday. With two exceptions, no traps were found in any of the pipes, closets or basins. The two that were there were useless. The soil pipe was found to run through the earth hardly two feet below the kitchen floor. In the kitchen the smell of sewer gas had been noticeable. Being appealed to by the tenants, the agents, H. D. Mildeberger & Son, of No. 80 Carminest, had sent plumbers, who professed to have renaired the pipes so that the trouble had been removed. The intesting of the house found themselves unable, however, not or joy their sleep. They complained of lassitude and new soil-pipes, sower traps and ventifating pipes were ordered by the Health officers, who attributed the smelden prostration of the humates to the recent rains, which had filled the sweer and forced the gas into the nutrapped drains.

the Grand Jury, relative to the alleged violation of the law in licensing booths, stands, etc., and particularly in regard to the action of the Aldermen at their has meeting, was the general subject of conversation Saturday in and around City Hall.

While the charge of Recorder Hackett was generally discussed Saturday among the members of the Board of Aldermen, there was no unexhess expressed as to the result. The opinion prevailed among them that Recorder Hackett had no right to interfere with a legislative body for legislative acts, and it was thought that a legislative body could not be indicted.

It is stated that the members of the Grand Jury have summoned before them several persons connected with the Department of Public Works, including the Commissioner, to order to inquire into the subject of the obstructions in the public streets, and that the investigation will probably begin on Tuesday.

Mr. Westphal doubted that the scheme would be a success and withdrew from his contract. This wrecked the captain's scheme, as he had no money to pay for the supplies. It was cold and windy and threatening rain when Princeton went to bat at 2:13. Neither side scored any runs in the first two innings, the playing being very fine by both nines. In the third inning Cutts, of the Princetons, got to first on a base hit and soon after scored a run. The score was not increased by either side, until in the seventh ioning Harvard made three runs. Run interrupted the play at this juncture, as it haddone a little while before. In about filteen minutes play was resumed, with Snook catching for Princeton, as Funknower had injured his hand. No more rains were made by the mines, and the game was ended by affine catch in centre field by Mr. E. Dodge, of Princeton, the score being 3 to 1 in favor of Harvard. The noteworthy features of the game were, on the part of Hirvard, the three base hits made in the second inning by Mr. Wright, and the fine playing of Mr. Latham on the second sate; and, on the part of Princeton, the one-band stop made by Mr. Kargé and the fielding of Mr. Wight, and In fine playing of Mr. Latham on the second with Friday's game the one yesterday secimed almost a victory for Princeton, and the students are loud in the praises of this nine.
